

I feel the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Many of the telemarketing calls I received were from companies in which I do business or have accounts. Many are not. I would always ask to be taken off the call list but always received 5-10 calls per week. This is down to about 1 per month or less thanks to the Indiana Attorney General Telephone Privacy law protection. I work at night and the last thing I want when I'm sleeping in the daytime is to hear my phone ring all day from some credit card company that wants to sell me insurance, an auto club, or vinyl siding. Thank you.
